

Telus air card users.

To avoid roaming charges please follow these simple instructions so that you are not charged \$3.00 per meg of info downloaded.

1. Open up the telus Watcher program. (with the compass 597 in the USB socket).

2. Click on the tools menu and choose options.
3. A new menu window opens up and then choose Network..

4. On the Network settings choose "Home Only". Then click OK and continue to surf the net in Canada only.

Please be aware that this setting should be checked when you are near the US border.
